

Phonak Naída™ Lumity.

Conversations shine for everyone.

Conversations shine for everyone

For over 75 years, Phonak has been dedicated to the innovation of power hearing solutions. Phonak Naída Lumity is our latest advancement, accompanying you in the toughest listening situations.

Whether from birth, a decline over time or even by a sudden occurrence, we know that difficulties in maintaining conversations and perceiving emotions can impact your social and emotional well-being.¹

As a person with hearing loss, you may face unique challenges that prevent you from fully participating in conversations and enjoying meaningful connections with confidence.

At Phonak, we go beyond simply offering the right hearing solutions. We are committed to raising awareness, encourage actions and help you to thrive in all areas of life.

With Naída Lumity, we've built our most powerful hearing solution that is made to be robust and reliable, so that you can embrace all opportunities.

Navigate conversations with confidence

Learn more about
Naída Lumity

When you have a hearing loss, you may spend more effort maintaining awareness of your surroundings than people with normal hearing.² That effort can lead to tiredness and a feeling of fatigue at the end of the day. Phonak Naída hearing aids — now featuring state-of-the-art Phonak SmartSpeech™ Technology — are designed to place priority right where you need it: speech understanding in noise and in quiet.

New advanced features allow you to focus more on the speaker and staying aware of what's happening around you, so you can confidently navigate conversations and enjoy the moment.

Naída and Roger: perfect pair for joyful conversations

When Naída Lumity hearing aids are paired with our Roger™ microphones, a powerful combination is created.

Thanks to improved sound quality and clarity, users perceive less listening fatigue and more confidence, independence, social inclusion, engagement and quality of life when using a wireless microphone system like Roger technology.⁴

Research also shows significant improvement of the listening experiences of older adults in challenging communication-based group situations.⁴

Speech understanding with Phonak SmartSpeech™ Technology

With SmartSpeech Technology, speech understanding is our top priority, that's why Naída Lumity comes with:

- A new set of advanced features allowing you to focus more on the speaker from the front, side and back*, so you can confidently navigate conversations
- Artificial intelligence prowess for precise sound identification. Adapted to your surroundings, and scanning 700 times your environment per second to benefit you and your loved ones

Extra needs, extra functionalities

- T-coil available with Naída L-UP
- Conveniently rechargeable hearing aid with Naída L-PR
- Tinnitus feature with Naída L-PR

*with SpeechSensor compared to StereoZoom

Connect with the world around you

Immerse yourself in a world of connectivity with Naída Lumity. With universal connectivity you can connect to a wide range of Bluetooth® enabled devices, and stream your songs and podcasts directly through your hearing aids. Our easy-to-use app on your smartphone, you get access to features and unique personalisation options that empower you to take control of your hearing and overall well-being. Embrace the freedom gained in your daily life with effortless hands-free phone conversations.

Since the introduction of our first power hearing aid decades ago, we have continuously developed and maintained a proud history of solutions for clients with a severe to profound hearing loss. We are driven by the aspiration and dedication to help people to have seamless access to every conversation and enjoy every moment.
